Ms. Julia Sweet
Hiring Manager
Accenture Philippines
Taguig City, Metro Manila, Philippines.

Dear Ms. Sweet

I am writing to express my strong interest in applying for the System administrator (entry level) position at Accenture Philippines. As a bachelor of Science in information technology graduate from PHINMA ARAULLO UNIVERSITY, I have built a solid foundation in computer system, networking, and basic troubleshooting. I am eager to start my career and apply what I have learned in a professional IT environment.

I am knowledgeable in Python, and I am familiar with using tools like Github and Git. Through my studies, I have learned how to identify common technical issues, troubleshoot system and connection problems, and find practical solutions. I am also willing to learn new technologies and improve my technical skills..

Aside from technical skills, I also have hands-on work experience. I completed my work immersion at the City Hall Office of DSWD, Gapan, I handled office tasks, managed documents, with different people. This experience helped me develop good time management, patience, and clear communication, skills that I know are important when assisting users and solving technical concerns.

I am interested in joining Accenture Philippines because of its work in technology and digital solutions. I would be grateful for the opportunity to contribute to your team, learn from experienced professionals, and develop my skills as a System Administrator. Accenture currently lists technology roles in the Philippines, including positions based in Taguig.

Thank you very much for considering my application. I would appreciate my opportunity to discuss how my skills and background can contribute to your team in an interview.

Sincerely,
Joel O. Blanco

JOB / EMPLOYER REFERENCE

Prepared by: Joel O. Blanco
Position Applying For: Systems Administrator (Entry Level)
Company: Accenture Philippines
